Member AIPG (CPG), SME and PDAC.
Convention speaker

Exploration / Development Experience

I have worked every level beginning with property examination and regional planning thru discovery (two +million ounce gold mines, a zinc-lead-silver deposit, a glass sand mine and two lithium brine deposits) and development to continued exploration on a producing mine. I have written over forty-five 43-101 format technical reports on uranium, lithium brine and mudstone, gold lode and placer and base metal projects. I am the Qualified Person and a board member for a few companies. I also develop properties for my own account and currently have or am working on lithium, uranium, geothermal and rare earth targets/ideas.

Country Experience

Argentina, Bolivia, Chile, China, Colombia, Ghana, Guyana, Mexico, Peru, Saudi Arabia, United States and Venezuela

Deposit Experience

Gold, silver, cobalt, copper, zinc, lead, geothermal, barite, fluorspar, lithium brines and sediments, borax, glass sand, tungsten, tin and uranium.

Outside Accomplishments

Arizona Oil and Gas Commission, Distinguished Toastmaster, Past Board member, Humboldt Co. (NV) Economic Development Authority, Past Pres., Winnemucca Lions Club, Non-current private pilot, Small business owner, writer

43-101 Format Technical Reports
